

Shape your
future with ViALUX.

Exciting opportunities for students!

Are you a student looking to combine theory with practice? At ViALUX, we offer the chance to work on cutting-edge projects and develop your skills! Whether you're looking for an internship or a bachelor's, master's or diploma thesis, you'll gain hands-on experience with the latest tech.

Take a look at these exciting fields:

- **Digital Circuit Design:** Learn how to create advanced digital circuits and get to grips with modern electronics.
- **Printed Board Design:** Discover how circuit boards are created and contribute to innovative designs.
- **Software Development (C++):** Build high-performance software that makes our products more functional and intelligent.
- **3D Measurement:** Join projects on precision measurement and groundbreaking applications.

Why choose ViALUX?

- Work with the best in the business: team up with top companies and institutions on real-world projects that make a difference.
- Get the personal touch: our experienced team is always on hand to offer one-to-one support and mentoring, so you can grow both professionally and personally.
- Get set up for success: enjoy excellent working conditions, modern tools and a motivating environment to bring out your best.
