

ViALUX UltraSpeed V-Modules

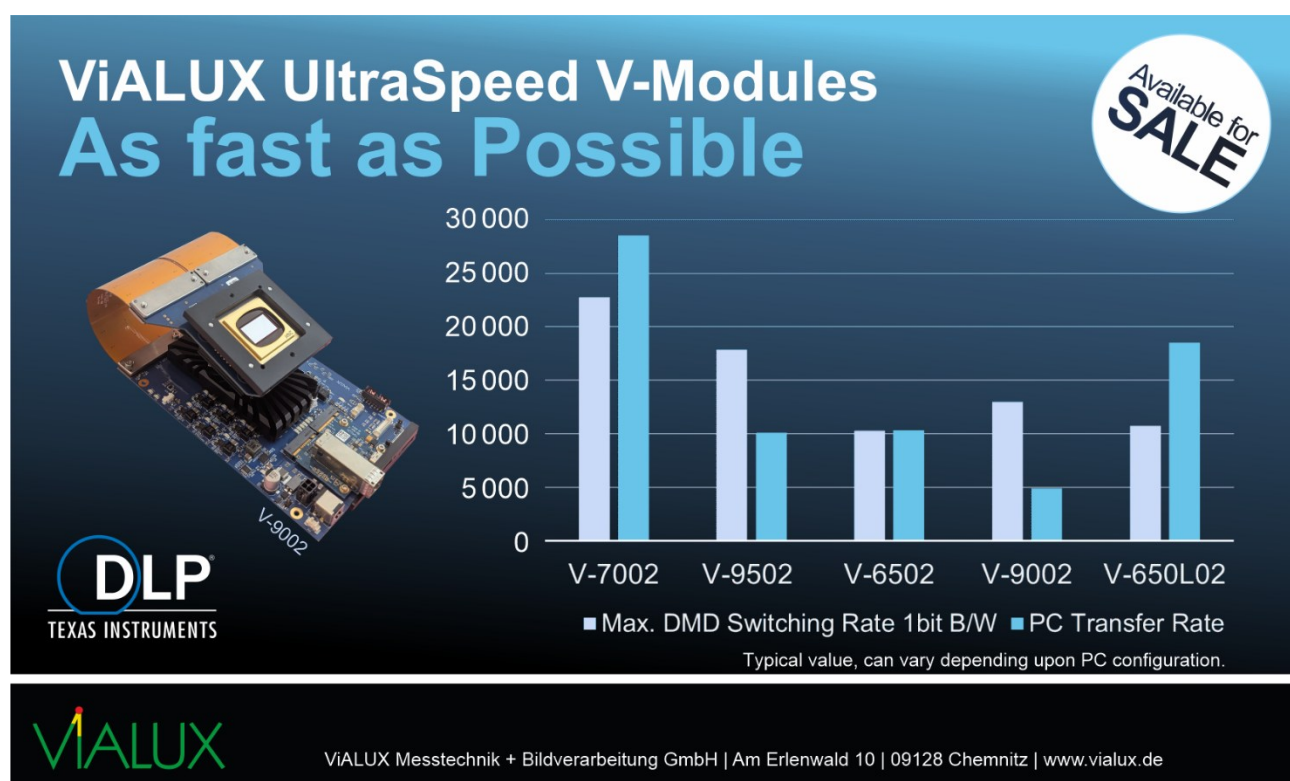

Blazing-fast Performance

Until now, our brand-new **UltraSpeed standard** was only available for DLP7000(UV), DLP9500(UV), and DLP650LNIR. However, the DLP6500 and DLP9000X(UV) are now also supported. This completes our portfolio and enables to offer a **PCIe interface** for the most important performance DMDs, in addition to other exciting features.

For anyone interested in **fast data transfer** between PC host and V-Module, the UltraSpeed standard is simply a must.

Key Advantages:

- Blazing-fast data transfer and stable connectivity: **PCI Express & USB 3.0 interface**
- Superior on-board memory access for peak performance: **32 GB DDR4 SDRAM**
- Recognized software for easy hardware management: **ALP-5.0 Controller Suite**
- Supported **DLP® chips**: DLP7000(UV), DLP9500(UV), DLP6500, DLP9000X(XUV), DLP650LNIR
