

Celebrating 25 Years of ViALUX

A Milestone of Innovation

ViALUX marks a significant milestone this year: our 25th anniversary and 25 years of AutoGrid®. Since our founding in Chemnitz, Germany in 2000, we have evolved from a small start-up into a globally recognized supplier of equipment for strain measurement analysis and also DLP® Technology products.

We would like to thank our customers, partners, and suppliers for the collaboration over the past 25 years and look forward to continuing this journey and shaping the future of strain measurement analysis together.

For further information please do not hesitate to contact us personally at autogrid@vialux.de.

Yours sincerely

AutoGrid® Sales and Support
