

High-Speed Access to PLM Technology

with ViALUX V-Modules V-9903P

ViALUX PLM Modules provide a ready-to-use platform for the Texas Instruments DLPM990 and DLPM990UV Phase Light Modulator, combining high-speed PLM control and the proven UltraSpeed architecture with the ALP Controller Suite, ViALUX's field-proven software interface for PLM control and application development, providing a comprehensive API for device configuration, data transfer, and high-speed operation.

As a long term TI Premium Partner, ViALUX provides a ready-to-use hardware and software platform, enabling customers to start working with PLM technology quickly and efficiently.

The banner features a dark blue background. On the left, a DLPM990 UV module is shown, which is a blue PCB with a black fan and a yellow square component. In the center, the text 'PLM V-Modules' is written in large white letters, with 'Phase Light Modulation' in smaller white text below it. To the right of this text is a light blue button with a white checkmark icon and the text 'Ready-to-use Hardware & Software'. Below the button, the text 'DLPM990' is written in large white letters. To the right of 'DLPM990' is a yellow square component with 'PLM' written on it. Below 'DLPM990' are two small colored squares, one purple with 'UV' and one rainbow with 'VIS'. In the bottom left corner, the 'DLP' logo is shown. At the bottom center, the text 'V-9903P' is written in white, with 'UV' and 'VIS' in small colored squares below it. At the bottom right, the ViALUX logo is shown. At the very bottom, the text 'ViALUX Messtechnik + Bildverarbeitung GmbH | Am Erlenwald 10 | 09128 Chemnitz | www.vialux.de' is written in small white letters.

Please don't hesitate to contact us should you need further guidance.

Best regards,

ViALUX
